AIR COMPRESSOR AMAC BK114

AMAC - 114 - 10L

The AMAC-114-10L portable air compressor is designed and built to ensure reliability and performance. This solidly constructed and highly efficient, slow running 'V' belt driven pump ensures dependable service for all kinds of industrial and commercial users. The compressor pump is fitted with inter-stage and after coolers to deliver cooler, drier air. The electrical motor is fully protected by a wired in direct on-line starter.

Technical Specification

Voltage	380/420 V
Power	5.5 HP
Receiver	10 liters
Pressure	10 BAR

Dimensions

Length	1500mm
Width	580mm
Height	760mm
Pressure	10 BAR
